

PLUSUER-PLUS® SF Cream

(Sex Stimulant Cream For **Women**)

The most important source of impulses for initiating the female sexual act is the glands vagina. These glands contain a highly organised sensory end organ system that transmits into the central nervous system a special modality of sensation called sexual sensation. The massaging action on the glands stimulates, the sensory end organs which finally send signals to the brain. These impulses aid in stimulating the sensual act. **Plusuer-Plus (for women)** contains a very special ensemble of herbs that stimulates blood flow to the genital region. Prolonged use of **Plusuer-Plus (for women)** has proved to be extremely beneficial in the following conditions:

- Improving vaginal stimulation
- Achieving good vaginal rigidity
- Powerful & multiple orgasms

VERGION-T® Stimulant Cream

(Vaginal Tightening Cream)

Vergion-T contains a very special ensemble of herbs that is proved to be extremely beneficial in: Achieving good **vaginal tightening**. The massaging action of Vergion-T increases the impulses to the vaginal glands for initiating sexual act. The highly organised sensory end organ system in the vagina then transmits signals to the brain & stimulation occurs.

Specially formulated to raise the levels of progesterone in women. Our women's sex enhancer **Vergion-T** can help to enhance sexual sensitivity, increase sexual stamina, and improve your ability to achieve more frequent and more powerful orgasms.

PLUSUER-PLUS® Stimulant Cream

(Sex Stimulant Cream For **Men**)

The most important source of impulses for initiating the male sexual act is the glands penis. These glands contain a highly organised sensory end organ system that transmits into the central nervous system a special modality of sensation called sexual sensation.

The massaging action on the glands stimulates the sensory end organs which finally send signals to the brain. These impulses aid in stimulating the sensual act. **Plusuer-Plus (for Men)** contains a very special ensemble of herbs that stimulates blood flow to the genital region. Prolonged use of **Plusuer-Plus (for Men)** has proved to be extremely beneficial in the following conditions:

- Improving penile erection
- Achieving good penile rigidity
- Having another erection soon after the orgasm.

BL*OSOM® Anti Wrinkle & Muscle Toner

Bust Beauty Cream

Skin firmness and tone are essential for an attractive contoured bust. Based on the formula which includes extracts of natural origin. **Blosom Bust Beauty Cream** reinforces the triangle of skin which holds the bust the 'natural bra'

The bust is immobilised and more or less restrained in the bra for most of the day, the whole year through. This loss of condition of the 'natural bra' can be aggravated by weight changes, pregnancy and the natural ageing process.

Blosom's Bust Beauty Cream 'tightening' effect helps tone the muscle supporting skin (the 'natural bra'). Blosom Bust Beauty Cream is specially recommended for loss of firmness during or after slimming or pregnancy.

BL*OSOM® Body Shaping Cream

Natural curves and streamlined contours are a modern woman's image of perfect body beauty.

Every woman at some time in her life experiences concern about her figure : lack of softness, slimness, firmness or simply a localised problem of skin slackening.

Blosom has created a **Body Shaping Cream** for refining, contouring, firming and tightening body contours and muscle tone restorer.

- For all women, whether overweight or slim, with 'sponginess'
- For all women who wish to maintain a toned, curvaceous body.
- For the diet-conscious.
- For women with post pregnancy stretchmarks.

BL*OSOM® Face Treatment Cream

Blosom's Face Treatment Cream is an effective skin care treatment. It optimises the specific properties of herbal extracts that have beneficial action on the skin. It is a multi-performance skin care product that projects and complements the skin keeping it soft, smooth and younger looking.

Blosom Face Treatment Cream contains a special ensemble of active natural ingredients which actively stimulate the four natural functions of the skin responsible for a youthful appearance.
